TAF light

Flexible control for light bleeding

Intended Use :

Designed for precise control of diffuse capillary bleeding in delicate, hard-to-reach areas which is ideal for neurosurgery, endoscopic, and robotic procedures requiring high flexibility and adhesion.

Size

2.5cm X 5cm, 7.5cm X 5cm, 12.5cm X 5cm, 35cm X 5cm, 20cm X 10cm

Ingredients

Oxidised Non Regenerated Cellulose

- Key Features**
- High Absorption Capacity
 - Fully Resorbable Material
 - Antimicrobial Protection Effect
 - Suture-Friendly Design
 - Promotes Faster Healing
 - Gel-Forming Action
